

# Summer school in **Water Governance**

frameworks and negotiations  
4 - 16 June 2018 2<sup>nd</sup> Edition

## **You are a young water professional active in the Geneva International? Apply for one of the five grants!**

The Geneva Water Hub is opening applications for **five grants** to attend the **Summer School in Water Governance – Framework and Negotiations** taking place between 4 and 16 June 2018 in Geneva!

The grants are:

- Targeted at young water professionals (20-30 y/o) and
- Professionals active in the frame of the International Geneva (International Organisations, UN System, International NGOs, etc.)
- Covering the programme's registration fees (3 500 Swiss Francs).

Reach out to [research@genevawaterhub.org](mailto:research@genevawaterhub.org) **before 27 April, 17.00** (GVA time) and send:

- An updated CV
- A cover letter detailing how your participation to the Summer School will help you to reach your objectives.

The **Summer School in Water Governance** in brief:

### **Objectives**

- Identify and analyse the new challenges of water resource management at the global scale, considering the whole water cycle.
- Analyse hydrodiplomacy and actors' strategies and understand trends and functioning of water governance at the global level.
- Provide tools to water professionals for the analysis of water policy issues and the management of the resource in the face of risk and uncertainty.
- Develop work-related skills such as: ability to analyse international legal and institutional frameworks, and the related negotiations; ability to prevent and regulate water conflicts.
- Develop a community of practice in the field of water governance.

### **Audience**

Young professional aiming to develop analytical skills on water governance processes. A broad diversity of backgrounds is expected: public administrations, international organisations, governmental and non-governmental organisations, private sector.  
MOOC in Water Resources Management and Policy ([UNIGE-Coursera](#)).

### **Programme**

- 5 modules, equating to 125 hours of teaching and 145 hours of personal study.
- The first module is a distance learning class (MOOC) on Water Resources Management and Policy.
- Modules 2-5 are classroom-teaching classes, organised on a full-time basis over a period of two weeks, 4-16 June, 2018.

- Each module corresponds to 1 ECTS.
- These modules are completed by a thesis that counts 5 ECTS.
- The teaching language is English.
- The CAS equates to a total of 270 hours of study, i.e. 10 ECTS credits. 1 ECTS (European Credit Transfer and Accumulation System) equates to 25-30 hours of work (teaching and personal study).

**Directors** Prof. Christian BRETHAUT and Prof. Géraldine PFLIEGER, [Institute for Environmental Sciences](#), University of Geneva.

**Partnership** Geneva Water Hub, Swiss Confederation - Global Programme Water - Swiss Agency for Development, Unesco Chair on Hydropolitics.
