

# Summer school in **Water Governance**

frameworks and negotiations  
3 June - 15 June 2019 3<sup>rd</sup> Edition

**You are an active young water professional looking for extra training.  
This could be an opportunity. Apply for one of the four grants!**

The UNESCO Chair in hydropolitics opens application for grants allowing young water professionals to follow the Geneva Water Hub Summer School in Water Governance that will take place between 3 and 15 June 2019 in Geneva, Switzerland.

The grants are awarded to young water professionals (20-30 y/o) or professionals active in the frame of the International Geneva (International Organisations, UN System, International NGOs, etc.) to cover registration fees.

Reach out to [research@genevawaterhub.org](mailto:research@genevawaterhub.org) **before 28 April, CoB** (GVA time) and send:

- An updated CV,
- A cover letter detailing how your participation to the Summer School will help you to reach your objectives.

The Summer School in Water governance in brief:

- Objectives** Deliver skills and analytical tools based on scientific research that are applicable in professional contexts.  
Reflect on water governance stakes and uncertainties in a multidisciplinary perspective.  
Analyse hydro-diplomacy and actors' strategies.  
Understand trends and functioning of water governance at a global level.  
Develop a community of practice in the field of water governance.
- Audience** Professional acting at strategic levels and aiming to develop analytical skills on water governance processes. A broad diversity of backgrounds is expected: public administrations, International Organizations, Governmental and Non-Governmental Organizations, private sector, etc.
- Programme** Five Modules: **MOOC Water Resources Management and Policy** (UNIGE-Coursera) • **Hydrology** - global trends and environmental changes • **International Water Law** - from universal to regional and basin agreements • **Right to Water Access** - law, water and development • **Hydro-diplomacy**.
- Directors** Prof. Géraldine Pflieger, Geneva School of Social Sciences (G3S), University of Geneva and Prof. Christian Bréthaut, Institute for Environmental Sciences, University of Geneva.
- Partnership** Geneva Water Hub, Global Program Water InitiativeS, DDC, Confédération Suisse and SIG (Services Industriels de Genève).
