

Water Talk Special Edition

Prof Asit K. Biswas

“Clean Water for an Increasingly Thirsty Urban World”

26 June 2018

Doors open at 16:00, room 001

Uni Carl Vogt / Institut des sciences de l'environnement

Boulevard Carl Vogt 66, Geneva

The Geneva Water Hub is proud to welcome honourable Prof Asit Biswas, co-founder of the Third World Centre for Water Management (Mexico) and Distinguished Visiting Professor at the Lee Kuan Yew School for Public Policy, National University of Singapore. He will provide a global overview of increasing level of distrust on world's urban water supply in both developed and developing countries in terms of quality where, more and more households are becoming mini-water utilities.

Open to the public, upon registration at
